Investment Option Summary

ANZ Smart Choice - International Equities (Hedged)

30 June 2026

Description

This investment option is designed for investors who want to invest over the longer term with a high level of risk. This investment option invests in international share markets. The foreign currency exposure will generally be hedged back to Australian Dollars.

Investment return objective

This investment option seeks to match the return of the MSCI World ex-Australia Net Total Return Index hedged to Australian dollars (including income and capital appreciation) less fees, charges and taxes.

Investment strategy

Provides exposure to most of the shares in the index, allowing for individual share weightings to vary marginally from the index from time to time. This investment option may invest in shares that have been or are expected to be included in the index. Derivatives are not utilised to leverage the portfolio. The foreign currency exposure will generally be hedged back to Australian Dollars.

Minimum time horizon

7 years
